

VMA HVAC & ELECTRICAL PROJECTS

COMPANY OVERVIEW

|| EXECUTIVE SUMMARY

Founded in 2015. Headquartered in Johannesburg. VMA HVAC & Electrical Projects (Pty) Ltd. is a tier-one infrastructure partner for South Africa's heaviest industrial, commercial, and government sectors.

We engineer, install, and maintain critical facility systems. We deliver empirical results. We ensure operational uptime. We operate under strict statutory compliance. We execute multi-site projects at scale. No exceptions.

|| CORE ENGINEERING SECTORS

We operate across three primary disciplines, providing end-to-end execution from procurement to final commissioning:

COMMERCIAL HVAC & REFRIGERATION

Heavy-duty climate control. Precision cooling, ventilation, and extraction for industrial processes and large-scale commercial facilities.

HEAVY INDUSTRIAL & COMMERCIAL ELECTRICAL

High-capacity wiring and infrastructure. Comprehensive Distribution Board (DB) installations. Full system testing and Certificates of Compliance (COC).

COMMERCIAL SOLAR & GRID-TIE INTEGRATIONS

Enterprise-grade power redundancy. High-yield solar arrays. Seamless grid synchronization for continuous operations and load-shedding mitigation.

|| STATUTORY COMPLIANCE & LEGAL AUTHORITY

RISK MITIGATION PROFILE: Enterprise engineering carries inherent operational and legal risk. We eliminate client liability. We operate under rigorous legal frameworks and hold active registrations with South Africa's highest technical authorities. This compliance matrix guarantees complete audit readiness for multi-million-rand tenders.

CIDB ME, EP and EP Registered Legally cleared for apex construction and engineering contracts.	SARACCA Certified statutory authority for HVAC and refrigeration systems.
Electrical Conformance Board (ECB) Verified regulatory compliance for commercial electrical installations.	Electrical Contractors Association (ECASA) Registered and fully vetted active member.
Dept. of Employment and Labour Registered Electrical Contractors. Legal authority to issue Certificates of Compliance (COC).	SAQCC Certified for the safe handling of pressurized systems and industrial gases.
Electrical Fence Installers (EFSI) Authorized to install and certify perimeter security infrastructure.	SAPVIA Certified renewable energy integrators (South African Photovoltaic Industry Association).

|| ENTERPRISE CLIENT MATRIX

We execute high-stakes projects for zero-downtime environments. Our operational scale is verified by our active deployment history across the following tier-one institutions:

AVIATION, GOV & PARASTATALS	CORPORATE & INDUSTRIAL	PHARMA, MEDICAL & RETAIL
• Airports Company South Africa (ACSA) • Air Traffic Navigation Services (ATNS) • Transnet • SITA • SABC • Gauteng Provincial Legislature (GPL) • SARAO • Human Sciences Research Council • National Health Laboratory Services	• Siemens Mobility • Barloworld • Gijima • Omnia Fertilizer • Mowana Properties • Quorum Properties	• Firmenich • Novo Nordisk • Elanco Animal Health • VX Pharma • Link Pharmacy • Chicken Licken • King Pie • International Hotel School

|| HARDWARE CERTIFICATION

We do not rely on third-party commissioning. We hold direct, manufacturer-level training and certification for tier-one power infrastructure hardware, ensuring factory warranties remain intact.

SUNSYNK SYSTEMS Certified Installers	ATESS Trained System Installers	LUXPOWER System Installers
